MIKE LEBLANC

Junior Software Developer

PROFILE

Diligent problem solver with an attitude to not give up. Criticisms are fuel for doing better. Continuously striving to improve and starving for knowledge.

ACHIEVEMENTS

Created a personal Python game

Used a handcrafted website to access and update a MySQL database I created on a XAMPP server.

Reduced time of looking for pallets of items at J.W. Bird by 30% by reorganizing and strategically placing pallets in categorized locations.
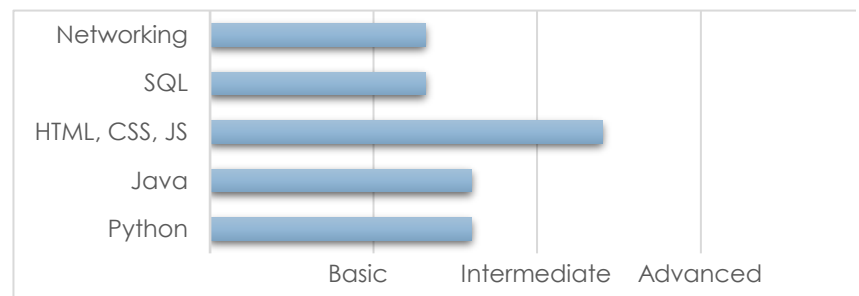

HOBBIES

Homesteading
Sports
Mechanics

EDUCATION

NSCC – IT Programming
September 2022 - Present
Averaging marks between 90% - 100%, I am learning a variety of new skills and languages. These languages include Python, Java, JavaScript, React, Node.JS and SQL.

NSCC – Computer Electronic Technician
September 2013 – May 2014
Learned to troubleshoot/diagnose problems with variety of technical equipment, the basics of coding, networking applications and windows administration through hypervisors.

WORK EXPERIENCE

J.W Bird Stairs - Warehouseman
November 2021 – September 2022
Processed daily freight, kept warehouse in an efficient state. Obtained certifications to use reach truck, forklift, and skid steer machines.

Nova Cold - Warehouseman
August 2018 – January 2020
Loaded and secured pallets of goods into trailers to be delivered throughout the province. Unloaded trailers that returned.

GCIFA – Web Designer
May 2014 – August 2014
Built and maintained a functional website for a small business. Used best practices while coding.
